

## Classroom Programs: Early Childhood

\$150 / 25 students + 3 chaperones / 30 minutes / includes animal encounter

### **Zoo for 2's (ages 2-3)**

Animal encounters for children aged 2 or for mixed groups ages 2 and 3. Children will be able to meet some animals and interact with 'biofacts' such as fur, feathers, and scales!

### **Animals on the Move (ages 3-5)**

Slither, crawl, hop, run and wiggle your way through a story, song and activity. Join us as we learn how animals get from one place to another. Students will be able to observe how different animals move and try out those movements themselves!

*VA Health and Physical Development Foundation Block 1; Science Foundation Blocks 1, 3, 5*

### **Colorful Animal Kingdom (ages 3-5)**

The animal kingdom is a colorful place! Explore how animals use colors through stories and activities. Students will have the chance to meet some animals and investigate colors up close!

*VA Mathematics Foundation Blocks 6; Science Foundation Block 1, 3, 5*

### **One, Two, Who's at the Zoo? (ages 3-5)**

Three, four, let's learn some more! Can you count how many ears an animal has? How many zebras live in a herd? Practice your counting skills using a story, song, and meeting some animal ambassadors!

*VA Mathematics Foundation Blocks 6; Science Foundation Block 1, 3, 5*

### **See, Hear, Touch and Smell (ages 3-5)**

Strengthen your senses as we explore what it means to see, hear, touch and smell. Students will encounter animals, both big and small, as we discover the many ways that animals sense the world around them.

*VA Science Foundation Blocks 1 and 5*
