## EDZOOCATION ACTIVITY: ENDANGERED SPECIES DAY

Endangered species are animals that may become extinct, or die out, within our lifetime. The Virginia Zoo is committed to helping save species by being involved in breeding programs, known as Species Survival Plans, donating to and partnering with conservation organizations and educating visitors on the importance of the world's wildlife.

## FIND AND SAVE THE SPECIES WORD SEARCH

Find the endangered species we are helping to save from extinction. Share your results and pictures of your favorite Zoo animal with us on social media using #VirginiaZoo!
