

## **Animal Groups (K-2nd Grade)**

Is it a mammal, reptile, bird, or amphibian? During this 30-minute program, students will meet 3 different animal ambassadors and learn how we use their traits to sort them into groups.

VA Science SOLs: K.7a,b; 1.5; 2.5a,b

## **Life Cycles (K-2nd Grade)**

Which animals lay eggs, and which animals give live birth? Which animals care for their young? Join us as we explore the different life cycles found within the animal kingdom.

VA Science SOLs: K.7; 1.5; 2.4a

NC Essential Standards (Science): 2.L.1.1, 2.L.1.2

## **Habitats (K-2nd Grade)**

What makes a habitat a home? During this program, students will discover how each animal is adapted for a specific habitat that meets all of its basic needs.

VA Science SOLs: K.6a,b; K.7a; K.11c; 1.5a,b; 2.5a-c

NC Essential Standards (Science): K.L.1.2, 1.L.1.1, 1.L.1.2, 1.L.2.2

# Close Encounters

## Senses (K-2nd Grade)

What's that sound? During this program, students will investigate how animals use senses to interact with their environment.

VA Science SOLs: K.5a,b, 1.5b

## Wild About Weather (K-2nd Grade)

Have you ever wondered how animals overcome the wildest of weather conditions? Join us as we investigate how weather and seasonal changes impact habitats and the things that live there.

VA Science SOLs: K.9a,b; 1.7; 2.7a

NC Essential Standards (Science): K.E.1, 2.E.1
